A day before Willard reached New Tork, Moran left for Saratogs Willards first workout here was so impressive that reports of it surely must have drifted into Moran's camp, Willard was generally considered 100 percent better fighter than when he replieved Johnson of the championship down Havana way last April; he was put in Jim Corbett's class as a hotter, and in Jim Corbett's class as a hotter, and in Jim Corbett's class as a hitter, and after reading these stories Moran's "psychological advantage" must have dwindled to no advantage at all. In fact, it is Mr. Willard who now has that "psychological advantage" must have first in a fight, for every one or serve him in a fight, for every one of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hard of them is broken, and to hit two hards of the control of the first time in getting back into the game. In 1895, Jeff did appear in the ring, but not as a principal, however. He refereed the Marvin Hart-Tommy Burns mill and Jeff's appearance in the ring served to complicate the heavy-weight situation for five ensuing years.

Jeff awarded the decision to Burns, and Jeff told Tommy be was the legitimate heavy-weight champion. And Burns believed it, too, until Jack Johnson knocked out Jeffries in 15 rounds on Jec.

In June 1914, Johnson defeated this same Moran person in 20 rounds, and just 10 months later Willard knocked out Johnson in 26 rounds.

Only two of the five infielders toted around in 1914 are still with the club. 'Butch' Schmidt, who used to first base has quit the game: Charles Beal is with the St. Louis Browns and Oscar Duger, utility man, is doing similar work for the Phillies. Courchen. Cotrell. Of the regular hurlers who worked under Stallings in 1914 only three remain—Tyler, James and Rudolph.

But the wrotking of the 1914 team has enhanced the chances of the 1916 outfit because the new Braves combination is far more powerful than the world champion aggregation. The 1914 Braves wouldn't have much of a chance in the coming pennant battle simply because the other teams have been strengthened far beyond their 1914 power. Stallings aw that he had to rebuild with stronger material—and he has done it.

### NEW MOUNT FRANKLIN GOLF COURSE STAKED OUT BY JANS WILL BE IDEAL

All is not true that's spoken, Mort.

No one has heard from Dick Klegin since Jack Johnson announced in Louden, on February 27:

"Dick Klegin has offered me \$50,000 to meet either Sam Langford or Sam McVey in South America."

When the news of his "offer" to Johnson reached Dick, he probably collapsed so completely that he hasn't had a chance to revive.

A \$10,600 purse for Jack Johnson now! BEFORE he left, Peter Jans staked out the proposed golf course of the Mount Franklin Country chil. While there is much work to be done before the course can be cleared and made playable, the prospects are excatlent. A gentle slope surrounded on

The Mt. Franklin Country dish golf links will afford golf of the highest class, every shot in the bag can be called into play and the golfer who commands a large variety will carry the advantage. The course will be 6147 yards long, holes less than 225 yards long are only 50 yards wide, while the longer holes are fully 60 yards wide. The tees are of goodly size and measure \$xi\$ feet. The putting greens are full regulation size. Some of the co-eds at the University of Wisconsin are just discovering what suffering one must endure when one yearns to become an athlete.

February 18th, 1916.

I am today mailing you a testomornal which you may use in any way or manner you see proper, and if it will be of any help to other people I will be glad.

If all your treatments are as successful as in my case anyone suf-

fering from Piles would certainly be glad to know of it, and anyone is at liberty to write or call on me in person and get a verification of this

Yours truly,

To Whom It May Concern:

Dear Doctor Ketcherwid

For the benefit of any sufferer from Piles, I wish to hereby state that about a year ago I went to Dr. Retcheroid, of the International Specialists for a very severe and painful case of Piles. I had been a sufferer from Piles for a long time, and bad tried all kinds of treatment, salves, dilators, injections, without relief, and was very skeptical as to a cure. But I can say with pleasure, that after the first administration of Dr. Ketchersid's treatment, I had relief and in less than a week I was occupletely cured, in every way, and have not had the least trouble since I took the treatment. R. R. TEE.

El Paso, Texas, March 6, 1916.

I wish to state that I am completely cured of a a bad case of piles and ulcerations of ten years' standing, after taking your painless Penn Infiltration treatment, and would advise all sufferers of piles to go to you, for you would surely cure them without any pain or being laid up in bed. You can refer any one to me and I will gladly answer all communications. With best wishes, I remain, Yours sincercly.
WM. COZINE.

Organ, N. M., March 3, 1916.

I called upon you February 25th in reference to a case of piles, from which I had been a sufferer for a long time, and after you examined me told me that you could cure me permanently in about a week without any pain, or laying me up in bed-1 was some what skeptical at first for I had tried a great many treatments, and I remarked in the usual way that "I was from Missouri and had to be shown." I am happy to state that you did as you agreed. I was operated upon by two well known fierful Specialists in Dallas, Texas, in 1908, and in 1911 by another Specialist in Dallas, without obtaining relief, and was told by my brother, an interne in the hospital, also by my family physician, that nothing but an operation could do me any good, and after taking two treatments from you, all pain, bleeding and protrusion were stopped, and five treatments, none of which caused the least pain, I am glad to state that I am entirely ented and will gladly refer all of my friends to you, and you can publish this any way you see proper, and I will gladly answer all inquiries, for Feanuot praiss your treatment too highly. Thanking you for what you have done for me, for I had been a sufferer from piles a great many years. I remain.

Sincerely your friend, A. P. RHODE,

Nash. Okla., February 29, 1916.

Deer Dector Kotchershi ... It gives me great pleasure to write you today, and tell you that I am completely cured of my piles. I had been a sufferer from piles for many years, and tried all manner of treatments without relief, and two years ago underwent a Surgical operation without being cured. I am happy to say, that after taking your painless treatment I am sound and well, and will gladly refer all my friends and acquaintances to you, for I know they will be pleased with the results as I am. You can publish this testimonial if you wish, and also refer any one to me, either personally or by letter. With my best wishes for your continued success,

Yours very truly, E. J. FELIX,

Nash. Okla.
